

www.headbalancer.com

Hello

I have achieved numerous world records and achievements globally in the last 21 years. During that time, I have raised more than £200,000 for charity with my unique talent of balancing all sorts of objects on my head.

It has taken me around the world and even seen me on the 40th anniversary episode of the Jay Leno Show which is broadcast from Hollywood and to places such as Singapore, Shanghai, Taiwan, New York, Chile and Russia.

It may seem incredible but John Evans from Derbyshire was the star guest on the show!

I am now 67 and still doing TV shows. This year I have been on the Paul O'Grady Show and am still the main attraction. On the 25th August 2014, I am one of the stars of the Lowestoft Lions at Nicholas Park. I will again be balancing THE MINI COOPER!

I am looking to offer my World Record Certificates to a pub who could display them. This would be a unique display and attraction for many years. I have regularly been listed in the Guinness World Records History books since 1993. I am also a Vice President for RECORD HOLDERS REPUBLIC and have a full page photo on the cover of this fantastic book.

There is a charge for my services, but this can be agreed between us.

One thing is for sure my name will always be in the books. Please pass this on to your business associates.

Also see the new PDF attached for bookings for 2015.

John
